CLINICAL PRACTICE SITES

University of Illinois Hospital and Health Sciences System

May 2010 - Present

Transplant Intensive Care Unit

Kidney, liver, pancreas, small bowel and islet recipients and living donors; 12-bed ICU and 10-bed step-down unit. Daily duties include:

- Patient assessment (medication reconciliation, review labs, adherence)
- Per protocol management (immunosuppression selection, subsequent allograft function monitoring and immunosuppression adjustment, management of acute/chronic comorbidities and adverse events/toxicities)
- Patient education and counseling
- Care coordination, transition of care, documentation

Transplant Center

Kidney and pancreas recipient pre-transplant evaluation and post-transplant care (acute and chronic); 8 half-day clinics per week; scheduled 110 patients per week. Daily duties include:

- Patient assessment (medication reconciliation, adherence, review labs, perform pharmacist specific review of systems)
- Per protocol management (determining immunosuppression regimen, subsequent allograft function monitoring and immunosuppression adjustment, management of comorbidities and adverse events/toxicities)
- Patient education and counseling
- Care coordination, documentation and billing

INVITED PRESENTATIONS AND CONTINUING EDUCATION

Program Chair - Illinois Transplant Pharmacists Association Educational Symposium

Organizing the second annual ACPE accredited CE program equivalent to 4.0 contact hours. This conference will provide experienced transplant clinicians the ability to gain deeper understanding of some of the latest developments occurring throughout the transplant community in order to best care for their patients. Highlighted topics include the use of marijuana in solid organ transplant, transplantation considerations for the elderly and pediatric populations, updates in antimicrobial/antiviral prophylaxis and immunization recommendations, and donor expansion via utilization of HCV and HIV positive organs. Additionally, there will be a session focused on adherence both pre and post-transplant which will provide the attendees the ability to gain tools and guidance on how to optimize care for new transplant recipients. The target audience will include transplant pharmacists, nurses and other health care professionals who care for transplant patients. UIC College of Pharmacy, Chicago, IL. Sept 2019

Patel S. "Delaying valganciclovir: A smart move or playing with fire?"

To be presented at the annual meeting of the American Transplant Congress, Boston, MA as part of the Optimizing Spending: Cost Savings Strategies in Transplantation Session. June 2019

Program Chair - Illinois Transplant Pharmacists Association First Annual Educational Symposium

Organized the inaugural ACPE accredited CE program equivalent to 4.0 contact hours. This half-day conference examined approaches to the utilization of maintenance immunosuppression, provided an overview of pharmacologic interactions, and reviewed new developments in pharmacotherapy. Highlighted educational topics included: Maintenance Immunosuppression: A Review, Drug Interactions in Transplant, Infections in Transplant Recipients, and Management of Co-morbidities Post-Transplant. The target audience included over 90 pharmacists and other health care professionals who care for solid organ transplant patients. UIC College of Pharmacy, Chicago, IL. Aug 2018

Patel S. "Immunosuppressive Therapy in Renal Transplantation – Advances in Treatment & Management"

ERS, ACPE accredited CE program equivalent 1.5 contact hours. Specialty Pharma Education Center (SPEC). Aug 2018

Patel S. "Alemtuzumab Neutropenia Safety Outcomes Historical and Internal Data"

A 20 minute presentation given to UI Health transplant team at Transplant Immunosuppression Guideline Meeting Series. July 2018

Patel S. "The Role and Impact of a Clinical Pharmacist in Solid Organ Transplant"

A 1 hour presentation given at The 6th Sino-America (East-China) Clinical Pharmacy Conference organized by the Shanghai Pharmaceutical Association in Hangzhou, China. May 2018

Patel S. "Therapeutic Interventions of a Clinical Pharmacist in Organ Transplant"

A 1 hour presentation given to clinical pharmacists and hospital pharmacy administration at Nanjing Drum Tower Hospital in Nanjing, China. May 2018

Patel S. "Managing Drug Interactions in a Solid Organ Transplant Recipient"

ACCME/NP, ANCC, ACPE, ACHE accredited CE program equivalent to 1.0 contact hour. VISN 12 SCAN-ECHO Post-Transplant Care Coordination Curriculum Series. Jul 2014 & Jan 2016

Patel S. "A Pharmacist-Focused Review of Solid Organ Transplant Medications and the Chronic Management of Transplant Recipients"

ACPE accredited CE program equivalent to 1.0 contact hour or 0.1 CEU. Jesse Brown VA Medical Center Continuing Pharmacy Education Program. May 2014

Patel S. "Eculizumab: A novel complement to desensitization in the prevention of AMR."

ACPE accredited CE program equivalent to 1.0 contact hour or 0.1 CEU. Resident Seminar Series. Mar 2013

Patel S. "Can a spray of rtPA make the clot go away? Catheter-directed thrombolysis: Recombinant tissue plasminogen activator in the treatment of DVT."

ACPE accredited CE program equivalent to 1.0 contact hour or 0.1 CEU. Resident Seminar Series. Nov 2011

MENTORING/ADVISING

University of Illinois at Chicago - College of Pharmacy

ASHP Accredited Residency, PGY1 or PGY2 Seminar Mentor

Khushbu Tejani, PharmD, PGY2 "A New Take on Tocilizumab: Anti-Interleukin-6 Receptor for Antibody Mediated Rejection"

RESEARCH EXPERIENCE

NON-FUNDED RESEARCH

Project Title: Effectiveness of antibacterial prophylaxis for the prevention of urinary tract infections in renal transplant recipients at an urban medical center
Role: Co-investigator (Present), Project Development/Mentor
Time Period: Jul 2018 - Present
Co-investigators: Kaitlin Seila, PharmD; Alicia Lichvar, PharmD; Alan Gross, PharmD

Project Title: Significance and impact of screening preservation fluid cultures in renal transplant recipients
Role: Co-investigator (Present), Project Development/Mentor
Time Period: Jul 2018 - Present
Co-investigators: Anesia Reticker, PharmD; Alicia Lichvar, PharmD; Alan Gross, PharmD

Project Title: Time Within Therapeutic Range: A Comparison of Three Tacrolimus Formulations in Renal Transplant Recipients
Role: Co-investigator (Present), Project Development
Time Period: Jul 2017 - Present
Co-investigators: Karen Khalil, PharmD; Patricia M. West- Thielke, PharmD; Alicia Lichvar, PharmD; Enrico Benedetti, MD

Project Title: Thymoglobulin versus alemtuzumab induction in high-risk, non-sensitized African American renal transplant recipients.
Role: PGY2 prospective research project; Principal Investigator (July 2012 - July 2013); Co-investigator (Present)
Time Period: Jul 2012 - Present
Co-investigators: Patricia M. West- Thielke, PharmD; James Thielke, PharmD; Jose Oberholzer, MD; Enrico Benedetti, MD

Project Title: Comparison of hepatitis C recurrence in orthotopic liver transplant recipients receiving antibody induction versus no antibody induction.
Role: PGY2 retrospective research project; Principal Investigator
Time Period: Jul 2012 – Jul 2017
Co-investigators: Patricia M. West- Thielke, PharmD; James Thielke, PharmD; Hoonbae Jeon, MD; Enrico Benedetti, MD

Project Title: A single-center, retrospective evaluation of outcomes following positive crossmatch renal transplantation despite failure to convert to negative crossmatch after desensitization.
Role: PGY1 research project; Principal Investigator
Time Period: Jul 2011 - Jul 2013
Co-investigators: Jamie Joseph, Pharm.D., BCPS; James Thielke, PharmD; Patricia M. West- Thielke, PharmD; Sanjeev Akkina, MD; Jose Oberholzer, MD; Enrico Benedetti, MD

FUNDED RESEARCH

Project Title: A Phase 2a, Randomized, Open-Label, Active Control, Multi-Center Study to Assess the Efficacy and Safety of Bleselumab in Preventing the Recurrence of Focal Segmental Glomerulosclerosis in de novo Kidney Transplant Recipients
Role: Co-investigator, Project Developed by Sponsor
Sponsor: Astellas Pharma US, Inc.
Time Period: 2018 - Present

Project Title: A double-blind, randomized-withdrawal, placebo-controlled study to evaluate the efficacy and safety of human plasma-derived C1-esterase inhibitor as add-on to standard of care for the treatment of refractory antibody mediated rejection in adult renal transplant recipients
Role: Co-investigator, Project Developed by Sponsor
Sponsor: CSL Behring LLC.
Time Period: 2018 - Present

Project Title: Astagraf XL® to Understand the Impact of Immunosuppression on De Novo DSA Development and Chronic Immune Activation in Kidney Transplantation (ASTOUND)
Role: Co-investigator, Project Developed by Sponsor
Sponsor: Astellas Pharma US, Inc.
Time Period: 2016 - 2017

Project Title: A pharmacokinetic analysis of tacrolimus dosing in morbidly obese renal transplant recipients. ClinicalTrials.gov NCT02444143
Role: Co-investigator, Project Development (Investigator Initiated Trial)
Sponsor: Astellas Pharma US, Inc.
Time Period: Jul 2012 - Jul 2013
Co-investigators: Patricia M. West- Thielke, PharmD; Jose Oberholzer, MD; Enrico Benedetti, MD
